Opportunity to practice consultations with real, human simulators online - Free Avatar Jo Vouchers

The GP SuppoRTT champions have secured free vouchers for one-to-one consultation practice with real, human simulators online through innovation bid funding. This is primarily aimed at increasing confidence of Out of Programme resident doctors to return to clinical practice by practising consultations in a safe space in their own time. If there are spaces left the vouchers will be offered to any Resident Doctor in East of England. The vouchers need to be used before 22nd of March 2027 and will be offered on a first-come, first-served basis with priority for Out of Programme resident doctors. The resident doctors who have taken up this opportunity so far have given feedback that the practice was “excellent” and “the simulators were friendly and mimic real patients”. For more information and to receive a voucher code, please contact Dr. Janani Dias at janani.dias1@nhs.net
